

Are Your Diagnostics Outsourcing Needs Being Met?

ResearchDx provides integrated outsourcing solutions for all aspects of diagnostics development and regulatory approval.

ResearchDx is The Contract Diagnostics Organization (CDO) for the Biopharmaceutical and Diagnostic Industries.

ResearchDx was founded on the core principles and expertise that help biopharmaceutical companies accelerate, develop and manufacture their companion diagnostic products. As the **premier** CDO, ResearchDx has established integrated, turn-key, flexible services that are focused on our customer's objectives. We manage the entire diagnostic development process - from initial assay concept and discovery all the way through clinical research to regulatory approval. At ResearchDx we believe in bringing personalized medicine to the next level.

OUR SERVICES INCLUDE:

DIAGNOSTICS/IVD RESEARCH

- Diagnostics Development Services
- Protocol Development and Sample Procurement
- Site Identification and Evaluation
- Clinical Trial Services and Consulting

CLIA/CAP LABORATORY

- High Complexity Esoteric Testing
- Specialties: Cytogenetics, FISH, Molecular Diagnostics, Molecular Pathology, ELISA-based Applications and Next-Generation Sequencing
- Clinical Trial and Reference Testing Services

LABORATORY CONSULTING

- CLIA, CAP, ISO and State Licensure
- Regulatory Consulting, Audits and Submissions
- Lab Quality Management Services
- Send Out Practice Management Evaluation
- Inspection Readiness Services
- Laboratory Facilities
- Start Ups, Equipment Sourcing
- International CLIA and ISO Solutions
- Laboratory Design, Implementation and Management

GMP MANUFACTURING

- Contract Manufacturing of Reagents, Assays and Kits
- Molecular Kit Development and Manufacturing
- Customization of Assay Kits for Research
- Rapid Production Schedules

TECHNICAL CONSULTING

- Assay Development
- Assay Platform Evaluation
- Assay Validation
- Laboratory Automation
