ResearchDx, the leading Contract Diagnostics Organization, receives a Strategic Partner Award from WuXi AppTec

Irvine, CA April 23, 2014 –

[ResearchDx](#), LLC of Irvine, California announced today that it has received a 2013 Strategic Partner Award from WuXi AppTec, Ltd. The award was given in recognition of the outstanding consulting and personnel services provided to the WuXi AppTec Genome Center Clinical Laboratory in attaining Clinical Laboratory Improvement Amendments (CLIA) certification from the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services. WuXi's clinical laboratory is the only CLIA-certified clinical laboratory in China.

"We are delighted to receive the Strategic Partner Award from WuXi AppTec, a global pharmaceutical, biopharmaceutical, and medical device R&D services company, and are proud to partner with them. Our mutual success is based on a shared commitment to provide services of the highest quality to clinical laboratory clients," said [Dr. Philip Cotter](#), Principal and Co-Founder of [ResearchDx](#).

The Consulting Services Division of ResearchDx provides comprehensive Clinical Laboratory consulting services encompassing quality management systems; assay design, validation and implementation; and consulting for [CLIA](#) and [International CLIA](#) certification, State licensures, and [Joint Commission International](#), [College of American Pathologists](#), and [ISO 15189](#) accreditations.

"The award is timely, as [ResearchDx](#) is increasingly working with international clients seeking accreditations for their Clinical Laboratories. ResearchDx offers its clients unparalleled experience in opening, licensing, and operating Clinical Laboratories, both in the U.S. and overseas," said [Dr. Mathew Moore](#), Principal and Co-Founder of [ResearchDx](#).

[ResearchDx](#) is the leading [Contract Diagnostics Organization](#) serving the biopharmaceutical and diagnostic industries. The company provides comprehensive, integrated, and flexible services for the *in vitro* diagnostic development process. From initial assay conceptualization, discovery, optimization, and validation in a CAP/CLIA laboratory environment through a complete set of clinical research services and regulatory approval, ResearchDx offers solutions to meet customers' complex needs in diagnostics development. ResearchDx's primary service areas include assay research and development, clinical laboratory services, clinical research, diagnostic manufacturing, and consulting.
